

DIALOR'05: Program

Day 1	
Thu., June 9	
08:30 - 09:00	Registration
09:00 - 09:30	Introduction
09:30 - 10:30	Justine CASSELL (Northwestern University, USA) - TBA
10:30 - 11:00	Coffee break
11:00 - 11:30	<i>Integrating a Discourse Model with a Learning Case-Based Reasoning System</i> - Karolina Eliasson (Linköping University, Sweden)
11:30 - 12:00	<i>Integration of Live Video in a System for Natural Language Dialog with a Robot</i> - Erik Sandewall, Hannes Lindblom and Bjoern Husberg (Linköping University, Sweden)
12:00 - 14:00	Lunch
14:00 - 15:00	POSTER/DEMO SESSION
15:00 - 15:30	Coffee break
15:30 - 16:00	<i>Dialogue Systems: Simulations or Interfaces?</i> - Staffan Larsson (Goeteborg University, Sweden)
16:00 - 16:30	<i>A system for generating teaching initiatives in a computer-aided language learning dialogue</i> - Nanda Slabbers (University of Twente, The Netherlands), Alistair Knott (University of Otago, New Zealand)
16:30 - 17:00	<i>Multimodal Dialogue System Grammars</i> - Björn Bringert, Robin Cooper, Peter Ljungloef (Goeteborg University, Sweden), Aarne Ranta (Chalmers University of Technology, Sweden)

Day 2	
Fri., June 10	
09:30 - 10:30	Arthur GRAESSER (University of Memphis, USA) - TBA
10:30 - 11:00	Coffee break
11:00 - 11:30	<i>Let's you do that: carrying the cognitive burdens of dialogue</i> - E. G. Bard, A. H. Anderson, Y. Chena, H. Nicholson, and C. Havard, (HCRC, University of Edinburgh and University of Glasgow, Scotland)
11:30 - 12:00	<i>What makes Human-Robot Dialogues struggle?</i> - Petra Gieselmann (University of Karlsruhe, Germany), Alex Waibel (Carnegie Mellon University, USA and University of Karlsruhe, Germany)
12:00 - 14:00	Lunch
14:00 - 15:00	POSTER/DEMO SESSION
15:00 - 15:30	Coffee break
15:30 - 16:00	<i>Designing An Open, Multidimensional Dialogue Act Taxonomy</i> - Harry Bunt and Yann Girard (Tilburg University, The Netherlands)
16:00 - 16:30	<i>Automatic annotation of COMMUNICATOR dialogue data for learning dialogue strategies and user simulations</i> - Kallirroi Georgila, Oliver Lemon and James Henderson (University of Edinburgh, Scotland)
16:30 - 17:00	<i>Empirical determination of thresholds for optimal dialogue act classification</i> - Nick Webb, Mark Hepple and Yorick Wilks (University of Sheffield, UK)
17:30 - 18:30	<i>Concert</i> - room A008

Day 3 Sat., June 11	
09:30 - 10:30	Gerhard JAEGER (University of Bielefeld, Germany) - TBA
10:30 - 11:00	Coffee break
11:00 - 11:30	<i>Utility and implicatures of imperatives</i> - Maria Aloni (University of Amsterdam, The Netherlands)
11:30 - 12:00	<i>Conditional anaphora</i> - Henk Zeevat (University of Amsterdam, The Netherlands)
12:00 - 12:30	<i>Action at a distance: the difference between dialogue and multilogue</i> - Jonathan Ginzburg and Raquel Fernandez (King's College, London, UK)
12:30 - 14:00	Lunch
14:00 - 15:00	POSTER/DEMO SESSION
15:00 - 15:30	Coffee break
15:30 - 16:00	<i>The Discourse Function of Final Rises in French Dialogues</i> - Marie Safarova (ILLC, Amsterdam, The Netherlands), Philippe Muller (IRIT, Toulouse, France), Laurent Prévot (Laboratory of Applied Ontology, Italy)
16:00 - 16:30	<i>On Plurals and Overlay</i> - Massimo Romanelli, Tilman Becker and Jan Alexandersson (DFKI, Germany)

1. Posters / Demos - Day 1

- *WOZ Experiments in Multimodal Dialogue Systems* - Pilar Manchón, Guillermo Pérez and Gabriel Amores (University of Seville, Spain)
- *Multi-Party Interaction With Self-Contained Virtual Characters* - Markus Löckelt and Norbert Pfeleger (DFKI, Germany)
- *Presentation Strategies for Flexible Multimodal Interaction with a Music Player* - Ivana Kruijff-Korbayová, Nate Blaylock, Ciprian Gerstenberger, Verena Rieser (Saarland University Saarbruecken, Germany), Tilman Becker, Michael Kaiser, Peter Poller, Jan Schehl (DFKI Saarbruecken, Germany)
- *DJ GoDiS: Multimodal Menu-based Dialogue in an Asynchronous ISU System* - Staffan Larsson, David Hjelm (GU Dialogue Systems Lab, Göteborg University, Sweden)

2. Posters / Demos - Day 2

- *Robust Semantic Interpretation and Dialog Management in the Context of a CALL Application* - Johan Michel and Jérôme Lehuen (Université du Maine, France)
- *Dialogue Act classification in task-oriented information-seeking dialogues* - Jeroen Geertzen and Yann Girard (Tilburg University, The Netherlands)
- *A new Metric for the Evaluation of Dialog Act Classification* - Stephan Lesch, Thomas Kleinbauer and Jan Alexandersson (DFKI, Germany)
- *Towards Ontology-based Pragmatic Analyses* - Berenike Loos, Robert Porzel (European Laboratory GmbH, Heidelberg, Germany)
- *Micro-analysis of the belief transfer in information dialogues* - Roser Morante, Harry Bunt (Tilburg University, The Netherlands)

3. Posters / Demos - Day 3

- *Extensions to Speaker/ Hearer Representation in DRT* - Yafa Al-Raheb (University of East Anglia, UK)
- *Automatic analysis of elliptic sentences in the Thetos system* - Nina Suszczanska (Silesian University of Technology, Poland), Julia Romaniuk, Institute of Linguistics (National Academy of Science, Ukraine), Przemyslaw Szmaj (Silesian University of Technology, Poland)
- *Simplified MMAXQL: An Intuitive Query Language for Corpora with Annotations on Multiple Levels* - Christoph Müller (EML Research gGmbH Heidelberg, Germany)
